Posted on March 26, 2004

The Center for Naval Aviation Technical Training (CNATT), recently held an Adopt-a-School Partnership ceremony at Pleasant Grove Elementary School.

CNATT's Commanding Officer Capt. R. Carl Mock and Linda Brown (Pleasant Grove Elementary School) signed documents making the partnership official. CMDCM Wayne Mihelich and the Top Three Association's President, also attended the ceremony.

CNATT's Top Three Association, which is made up of chief petty officers and senior enlisted Marines, will take the lead in this important initiative.

"We intend to aid in the students' development through mentoring and continued positive support," Long said.

CNATT's involvement with the mentoring program is just one of the examples of the importance of relationships between the Navy and the civilian community.
